

# SeeStar<sup>®</sup>

GUIDING DEVICE

Optimize efficiency  
during your  
procedures with  
SeeStar<sup>®</sup>

## Indication for use

A passive guide for guided invasive access to tissue that is to be examined and/or treated.

**AprioMed**

# SEESTAR® GUIDING DEVICE

- Visualize and adjust the planned CT-guided biopsy before entering the needle.
- Reduce the number of needle manipulations<sup>1</sup>.
- Support the needle during superficial punctures.
- Maintain the direction of the needle during puncture.

SeeStar® aids the physician by producing an artifact in the CT image, indicating the intended needle path.

## ORDERING INFORMATION

Product number	Product description	Minimum Order Quantity
13314	SeeStar® 14 gauge (green) Di 2,2 mm 0,087 inch, suitable for needle sizes 14 and 15 gauge	5 units
13317	SeeStar® 17 gauge (pink) Di 1,6 mm 0,063 inch, suitable for needle sizes 17 and 18 gauge	5 units
13320	SeeStar® 20 gauge (yellow) Di 1,0 mm 0,039 inch, suitable for needle sizes 20 and 21 gauge	5 units

Before using SeeStar® read the Instructions for Use which accompany the product.
