DuoGuide® II Guidewire

TaperTip™ Dilator

Designed to make the first stage of the nephrostomy procedure simpler and less painful

DuoGuide® II Guidewire

- Catheter support without compromising formability
- Achieve accurate placement through visualization
- Introduce through a 0.9 mm needle

TaperTip™ Dilator

- Achieve dilation in a single step
- Lessen pain with the long tapered tip
- Reduce risk of penetrating the collecting system

AprioMed provides tools that enable physicians to optimize precision and control during the most challenging procedures. For more information about AprioMed's Interventional Radiology products please visit www.apriomed.com
