

Bonopty®

ADAPTER 1:3 REVOLUTIONS

Ergonomic grip for faster drilling

- Transfers and enhances fingertip force to reduce drilling procedure time
- Ergonomic grip ensures full control while preserving tactility and precision
- Universal attachment fits both Bonopty® 12g and Bonopty® 14g drill

Indication for use

Intended for use in the drilling procedure together with Bonopty® Bone Biopsy System

AprioMed

USE OF BONOPTY® ADAPTER 1:3 REVOLUTIONS

1 Start procedure as per normal routine.

a Press penetration cannula with stylet down to bone.

b Replace stylet with eccentric drill.

Rotate a few turns until drill tip catches the bone.

Verify position and direction using diagnostic imaging.

c Retract penetration cannula to expose drill tip beyond penetration cannula to allow the eccentric movement of the drill.

2 Attach Bonopty Adapter 1:3 Revolutions to the drill hub.

Grip the base of the adapter using finger and thumb grip.

Turn the top of the adapter and feel the eccentric drill turning. Use moderate pressure only.

After drill has passed through cortical bone, anchor penetration cannula 2-3 mm into cortex.

Remove drill and adapter.

Using Bonopty® Adapter 1:3 Revolutions, one complete turn of the top of the handle...

...corresponds to three turns of the drill tip

3 Insert biopsy needle through the anchored cannula and continue procedure as per normal routine.
